## SHOOT-DON'T SHOOT STRESS TRAINING DEVICE

**Training Category/Level Utilized:**

Infantry/Level 2

**Logistic Responsible Command, Service, or Agency:**

STRICOM

**Source and Method of Obtaining:**

Not generally available for issue (limited production).

**Purpose of Trainer:**

DVC 19-02 provides a life-size, stressful training environment which enables military police personnel to develop the techniques necessary to make the proper decision whether or not to use deadly force.

---

**Functional Description:**

The device is an electronics video presentation system contained in a large console, a small control console, a large white screen and a non-live fire semi-automatic pistol. The device presents a target or situation on the screen and requires the trainee to decide if and when to shoot. The device tests decision-making skills and marksmanship.

The device provides complete replay of results, in real time, slow motion or frame by frame. Evaluation during and after training can be conducted through the replay and printout of results.

The device lends itself to the creation of shooting and decision-making under stressful situations and provides objective evaluations that can be used for performance measure or competition.

The device uses an eye-safe laser installed in a real semiautomatic pistol. Targets are presented from a videodisc using a high resolution, large screen projection system.

**Physical Information:**

42" x 26" x 27" high, mounted on heavy duty casters, 250 lb. Screen opens to 82 1/2" x 110"

The optimum training conditions require that incandescent lighting be eliminated.

**Equipment Required, Not Supplied:**

None

**Special Installation Requirements:**

The device requires open floor space of at least 14 feet wide and 20 feet long with a ceiling of at least 7' 10". The device will operate under conditions of 50 to 90 degrees F.

**Power Requirements:**

115 vac, 50-60Hz, <0.5 KVA (normal), <1.0 KVA (maximum)

**Applicable Publications:**

Commercial Manual

**Reference Publications:**

FM 19-10 Military Police Operations

FM 23-35 Pistols and Revolvers

**Training Requirements Supported:**

MOSC 95 Series

All 9 Series ARTEP's
